

**Science Applications International Corporation (SAIC)  
Company Team Overview**

---

**The SAIC Team Delivers**

Science Applications International Corporation (SAIC) is a large, employee-owned, professional services company with over 30,000 employees and \$4 billion in revenues. SAIC has assembled an integrate team that will work together to support Service Areas 1, 2, and 3. The SAIC Team offers carefully coordinated resources to support program evaluation, personnel assessment, and occupational change as an iterative cycle of continuous improvement.

**Knowledgeable**

The SAIC Team brings broad knowledge in training and performance development derived from independent research and directly relevant work for State and Federal agencies, private industry, and labor unions. Recent work for the IRS demonstrates our knowledge of emerging technologies and performance strategies to IRS Corporate Education.

**Capable**

Company-funded laboratories expedite work in human-computer interaction, cognition, usability studies, virtual environments, technology evaluations, and multimedia production. Personnel resources include more than 1700 employees in the Washington, DC, area alone who are qualified in the labor categories of the RFP. Thousands more offer unsurpassed abilities in information technology, systems integration, and telecommunications.

**Qualified**

All four companies on the SAIC Team have demonstrated their qualifications in training and performance development through recent, relevant work for the IRS. Related work for other Government and industry organizations further illustrates the range of skills available fro the SAIC Team.
